

ESTIFANOSE DEJENE

Full-Stack Dev & Graphics Designer

About Me

I am a Computer Science Graduate with a strong commitment to excellence and a passion for the field. I pride myself on being a responsible and orderly individual, which reflects in my work ethic and attention to detail. Beyond my academic pursuits, I find enjoyment in watching movies and engaging in video game sessions with friends during my leisure time. I am enthusiastic and eager to embark on my professional journey, eager to apply my knowledge and skills in a real-world context and contribute to the exciting world of computer science. I am dedicated to continuous learning and personal growth, and I look forward to gaining valuable experience and making a meaningful impact in my future endeavors.

Work Experience

Remote Freelance Jobs, Full-Stack Web Development and Graphics Design

Self-Employed, 2019 - Now

- Designed and developed over 20 responsive websites for clients across industries. Crafting user-friendly front-end interfaces using HTML, CSS, and JavaScript, ensuring responsiveness and cross-platform compatibility.

- Built robust back-end systems using Node.js, Python, and PHP, integrating APIs for seamless client-server communication.

- Created and managed databases using MySQL and MongoDB to ensure efficient data storage and retrieval.

- Design and implement visually appealing UI/UX designs aligned with project goals.

- Created visually compelling designs for web applications, marketing materials, and branding assets using tools like Adobe Creative Suite and Figma.
